BULBS

for

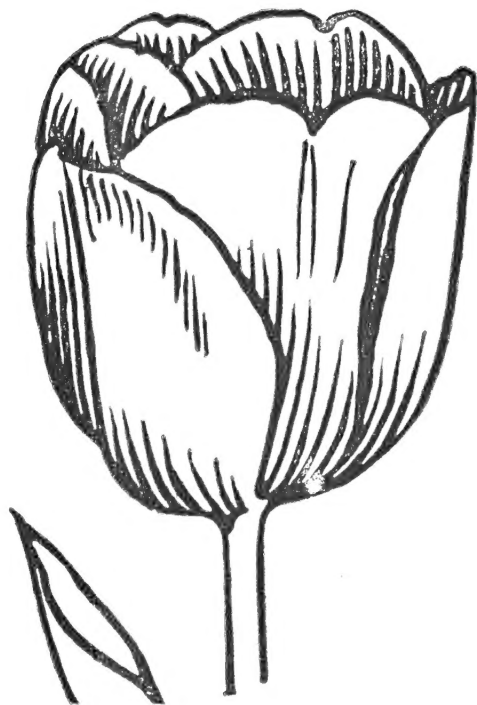

1950

EAST BAY NURSERY

2332 SAN PABLO AVE., BERKELEY 2, CALIF.

TULIPS

Plant Tulips 6 inches deep and 8 inches apart in rich, deep, well drained soil. After the bulbs die down, lift the bulbs, dry them in a cool, airy place, dust with sulphur, and store until October when they should be replanted. Do not plant Tulips in small square blocks or thin lines! Very pleasing effects can be obtained by planting them in irregularly shaped drifts of a dozen or more bulbs of one variety.

Soleil d'Or. Rich yellow with orange cup.

Paper White. Pure white, cluster flower.

DUTCH IRIS

Plant in sun or partial shade, 3 to 4 inches deep and from 4 to 6 inches apart.
If planted in a sunny location they may be left in the ground for years in succession.

Beautiful orchid-like flowers in many lovely shades.

75c doz.; \$5.25 per 100.

Imperator. Light blue.

Wedgewood. Clear blue, one of the earliest.

Golden Harvest. Golden yellow.

White Excelsior. Large pure white.

WARNING

Never use manures with bulbs for they may cause the bulb to rot. Bone meal or balanced commercial fertilizer with peat moss is best for bulbs. All bulbs need good drainage.
